Replace Multi Y Series 24hp Outdoor Unit

R410A Heat Pump

The latest VRF Replace Multi from Mitsubishi Electric is specifically designed for the maturing refurbishment sector, enabling the reuse of existing R22/R407c pipework, whilst also allowing the upgrade to some of the most efficient systems available in the market.

- **Tried and tested technology that's been employed for over 5 years**
- **Efficient use of existing resources - refrigerant piping, control and power wiring and less waste materials**
- **Reduced installation time with minimised disruption**
- **Ability to replace many non Mitsubishi Electric systems**
