

# Air Conditioning

## Product Information

### PAR-U02MEDA : TOUCH SCREEN REMOTE CONTROLLER

## CONTROLS

Our air conditioning systems are supported by a multitude of remote controllers. Each remote controller type, whilst being able to support the general control and monitoring functions for a group of indoor units, can also offer other unique operational features.

The PAR-U02MEDA is our new MNET touch screen remote controller which includes a back light. This controller also includes a built in PIR sensor allowing the Air Conditioning to be switched On/Off automatically when a meeting room for instance is occupied or unoccupied. The controller can also set the Air Conditioning in night set back when the room is unoccupied.
